"TALKING OUT LOUD"

COINBIZ NOT ON NEW WPB RECONVERSION LIST

72 INDUSTRIES SET FOR RECONVERSION. WPB GRANTS RATINGS FOR TOOLS AND CONSTRUCTION. ESTIMATED COST $160,000,000. MORE THAN HALF FOR AUTOS. WPB CLAIMS LIST WILL BE EXPANDED AND "CONSTANTLY REVISED". URGE COINBIZ MFRS TO REPRESENT NEEDS NOW TO GET ON NEXT WPB LIST.

WASHINGTON — In the very latest list issued by the War Production Board the coin machine industry does not appear as being given the go-ahead signal. Of the 72 industries that have been told they will receive priorities and aid in obtaining machine tools and construction essential to reconversion, the auto industry is given 85 millions of the 160 millions already appropriated for this purpose.

The AA-3 priority rating to be granted to this list of 72 industries will enable them to get into operation on post V-E day orders at what is described at a "break-even" rate. Thru its use, officials said, WPB hopes to break the time lag between the cancellation of war contracts and the start of actual peacetime production.

Only hope for this industry is the fact that WPB stated that the list will be expanded and "constantly revised as the civilian production picture develops."

The meeting of the coin machine manufacturers on April 30 at the Crystal Room of the Hotel Sherman was especially called so that this trade could appear before the War Production Board and obtain priorities to go ahead with domestic products manufacture.

It is understood thruout the industry that many coin machine manufacturers will find their contracts terminated right after V-E day. Therefore the manufacturers are urged to proceed with all possible speed to get this industry on the next reconversion list of WPB.

The 72 industries granted priorities to go ahead are as follows:

CONSTRUCTION MACHINERY: Tractor equipment; Bituminous equipment; Concrete equipment and centrifugal pumps; Crushing equipment; Graders; Miscellaneous construction machinery; Power cranes and shovels; Road rollers; Track laying tractors.

GENERAL INDUSTRIAL EQUIPMENT: Commercial and industrial refrigeration and air-conditioning equipment; Beverage machinery and equipment; Tobacco machinery and equipment; Sugar processing machinery and equipment.

PLUMBING AND HEATING: Cast iron boilers; Cast iron radiators; Cast iron sanitary enamelware; Cast iron soil pipe and fittings; Commercial cooking equipment (not electric); Commercial dishwashing machines; Direct fired water heaters (gas and oil); Domestic cooking and heating stoves; Electric water heaters; Extended surface heating equipment; Fabricated piping; Formed steel sanitary ware; Gas conversion and industrial gas burners; Heating controls; High pressure steel boilers; Indirect water heaters; Low-pressure steel boilers; Mechanical stokers; Oil burners; Plumbing fixture fittings and trim range boilers and hot water storage tanks; Steel septic tanks; Vitreous china and semi-vitreous or porcelain plumbing fixtures; Warm air distribution equipment; Warm air furnaces; Water heaters (coal and wood).

MUSIC OPS ASK PHONO MFRS TO HELP CLEAR UP RECORD SITUATION

Believe Phone Mfrs Carry Sufficient Weight to Help Bring Relief Before New Units Appear on Market Otherwise Claim No Sense Expanding Operations.

NEW YORK — Tho reports received in these past few weeks from all over the nation point to the fact that the campaign conducted by The Cash Box to obtain more equitable distribution of phono records to the cointrade is at last beginning to bear fruit, there are as yet many music coinmen who haven't felt any betterment of the present situation.

These men have declared that in their estimation the phono manufacturers should also enter into this campaign to help rectify this present inequitable distribution problem. They feel that by the phono manufacturers getting back of The Cash Box in this campaign, that the weight these manufacturers bear will make itself well felt, and that the record manufacturers are sure to arrange for better distribution of their product to this trade.

As one noted music coinman explains, "Of what value will the new post-war phonos be to us if we haven't the records to operate them? As it is we are having our hands full now just trying to get enough records for the machines we now operate. We have to buy these at whatever prices we can pay from retail stores and jobbers all over the country.

"The manufacturers naturally want us to buy their new machines. We, too, want to buy as many of these new phonos as we possibly can. But of what value will these new units be to us if we have to let them gather dust in a warehouse while we try to get records to put into them?

"The manufacturers should help The Cash Box in the splendid job that it is now doing to bring a solution to this present record situation. We can truthfully state that the situation has been somewhat cleared since The Cash Box went to work on these record manufacturers, especially the big three.

"Thanks to The Cash Box from all music operators for the swell job that it has done and is doing telling the truth about the record problem."

There is no doubt any more that more power must be immediately placed behind the campaign to get the outstanding record manufacturers to give more equitable distribution to this coin operated music machines industry. Many fine plans have been advanced to effect better distribution. The trade eagerly hopes, therefore, that the manufacturers will get back of this campaign and help to rectify this situation to benefit their own wholesalers and operators.

WLB RECONVERSION POLICY

New Procedure Puts Accent on Pay Agreements and Speed. OEA and OPA Agree to Plan. Vinson Approval Needed.

WASHINGTON — Because one of the big post-war problems will be the labor situation, all industry was much heartened to hear the War Labor Board had unanimously adopted a reconversion wage policy with the accent on collective bargaining and speed. No changes in the stabilization policy is involved.

The new procedure is understood to be satisfactory to Wm. H. Davis, Director of Economic Stabilization, and the Office of Price Administration, but promulgation is withheld pending approval of Fred M. Vinson, Director of Mobilization and Reconversion.

To facilitate reconversion the WLB plan, in effect, puts a premium on successful collective bargaining. If an employer and his employees can agree on a wage rate structure and do not thereby require an exception under the OPA reconversion pricing policy, they may put the agreement into effect immediately. The WLB wants to look at it, but this process need not hold up production or wage payments.

Under existing procedure when an employer and his employees agree upon a change of wages (usually increase) they must file a petition (Form 10) with the WLB and wait for approval before putting any changes into effect.

The above bargaining speed angle is extremly important in view of the fact that many plants will want to return to former work and feel that they cannot pay present wage scales so doing. They want to know can they legally go back to former wage scales. Wage cuts without approval are forbidden. Yet employees realize that manufacturers are confronted with price ceilings and usually these are almost the same as what formerly sold at. Therefore some bargaining method must come into being to speed the labor problem back to competition in the civilian market.

NEBRASKA MUSIC OP WOULD RATHER QUIT

NEBRASKA CITY, NEB. — The following from Mason Colbert of this city gives some idea of what music ops generally think of the record situation:

"In regard to the record deal I have the following to say: 1) It has been a rotten deal. 2) The operators have been helpless. 3) The operators will still be helpless for to run machines we need records. 4) Between Petrillo, the manufacturers, the jobbers of records and the factories the operators will be working for nothing. 5) As far as I am personally concerned I will use old records as long as possible, mixed with a few late hits, after that—quit."

Mr. Colbert continues, "As far as the Colbert Coin Machine Company is concerned they have no love for any of the record manufacturers."

WASHINGTON - For a short period the news that came out of WPB's offices regarding the fact that L-81 had been revoked elated the entire coingames trade. But this was somewhat dampened when all the news was made known. Tho WPB revokes L-81 banning the use of critical materials in the manufacture of toys and games, it immediately afterwards announced that practically all the materials used in the manufacture of toys and games were still under conservation orders and other regulations. WPB pointed out that the use of copper, tin, rubber and zinc was still prohibited.

WPB ISSUES PR-27 GIVING SMALL MFRS AID ON MATERIALS

WASHINGTON - WPB issued its Priorities Regulation No. 27, a measure implementing the general industrial reconversion program by providing means for small business to obtain materials essential to civilian production. The new regulation, immediately effective gives manufaoturers who produce less than $50,000 worth of their own production quarterly an AA-4 priority rating for small quantities of materials. McNutt, Chairman of the War Manpower Commission, controls are being eased in all groupings thruout the country and in areas where war work will be cut back labor will be allowed to take other jobs by the local WMC director. War is not a baseball game but it has one thing in common with it. It isn't over until the last man is out . . . and you've got to keep on your toes until he *is* out. NO RELAXING UNTIL IT'S OVER — ALL OVER!

. . . BUT when it *is* all over LOOK to MUTOSCOPE for deliveries of new editions of those skillfully and solidly built machines that "stood up" so faithfully and made money for you year after year when replacements were impossible to get. Also look to MUTOSCOPE for some radically new machines that will open profitable new business opportunities to you.

C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week: Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
